Green Stockings

A three act Comedy Play, entitled "Green Stockings" will be performed by local talent in the Arm's Hall, on Wednesday, Nov. 2. As the play takes three hours the curtain will rise at 8 p.m. prompt so don't miss the beginning.

CAST

Directing Manager Mr. Radford:

Aunt Ida	Mrs. J. Rennie
Lady Trenchard (Evelyn)	Mrs. Forrest
Mrs. Rockingham (Madge)	Mr. J. W. Jake
Phyllis Faraday	Mrs. R. Smith
Celia Faraday	Mrs. G. Kettys
Wm. Faraday (Father)	Dr. Leavitt
Robert Tarver (Bobby)	Mr. L. Jones
Admiral Grice	Mr. W. Belden
Col. Smith (Vavasour)	Mr. R. Dunn
Henry Steele	Mr. W. Key
James Raleigh	Mr. H. Butts
Martin (Butler)	Mr. A. Cliphams

Personalities

Dressmaker wants work.—Miss E. McLean, Chinook.

Mr. Jas. Rennie made a business trip to Calgary last week.

The regular meeting of the Chinook Womens Institute will be held in the Rest Room on Wednesday, Nov. 2. All members are requested to attend. Remember the date Nov. 2.

We have been informed that Mr. J. R. Miller has been offered a position with the Canadian Credit Association. The Advance, in conversation with Mr. Miller regarding this offer confirmed same, but said that as regards the future his plans were undecided.

A Bazaar and chicken supper will be held in the Chinook church on Wednesday, Nov. 9 from 5.30 to 8 p.m. Supper 50 cts. Proceeds for church purposes. Your patronage is solicited.

Messrs. G. C. Cruickshank and E. Robertson purchased a new Ford car last week from the Service Garage.

The pupils of the Chinook school gave a farewell social last Monday evening in honor of Edward and Raymond Deman who are shortly leaving to attend the High School at Regina.

M. H. C. Elford left Tuesday for Laughed, Alta.

A number of young people of the town spent Tuesday evening at the parsonage. Old Country Halloween pastimes were revived by eating potatoes in the dark from the common dish, diving for apples and games.

Rev. T. H. Lansdale, of Veteran, in company with Rev. J. R. Geeson, of Youngstown, spent Tuesday in town. They were the guests of Mr. and Mrs. Isbister for lunch.

Mrs. M. J. Hewitt entertained a number of her lady friends at a whist party on Monday evening. Mrs. R. S. Woodruff had the highest score for the evening and won a lovely cut glass dish.

Mr. S. A. Miller, of Ojama, was a visitor in town last Sunday.

Cement Crossing To Be Built

Building has already commenced on a cement crossing which is being built by the Village Council from Miller's store down to the C.N.R. depot. This part of the town has always being a very bad place for the pedestrian during wet weather, and especially to a stranger visiting the town for the first time and getting off the train in the middle of the night was no easy matter for him to pilot his way across from the depot to the main sidewalk. This improvement has been needed for some time and will be appreciated by all.

FOWL SUPPER

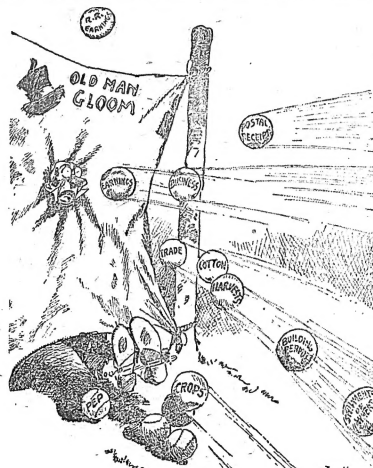

A fowl supper will be given by the Chinook U.F.W.A. in the School next Friday evening, Oct. 28. Supper will be served from 6 to 8 p.m., after which an entertainment will follow. A cordial invitation is extended to the public to attend. Admission adults 50 cts., children 35 cts.

WEDDING BELLS

Miss Irene, only daughter of Mr. and Mrs. W. Smith, of Loyallist, was united in marriage to Mr. Harold Shabino, of Chinook, on Sunday, Oct. 16. The ceremony was performed by the Rev. Mr. Sutherland, of Consort. Mr. and Mrs. Shabino returned to their farm south of Chinook last Saturday where they will reside. The Advance join with their many friends in wishing Mr. and Mrs. Shabino much happiness in their new sphere of life.

Major McIntosh A Candidate

At a meeting held in Medicine Hat last Friday by the supporters of the Meighen government, Major McIntosh was selected as candidate to contest in this riding at federal election. Major McIntosh is a farmer living near Irvine, and has served overseas with the C.M.R. in France and also on the Siberian front.

Hit'm Again

Donahy in the Cleveland Plain Dealer.

Look Out For Chautauqua At CHINOOK November 8-9-10

Look out for details about the artists and lecturers which will appear on the programme.

Apples! Apples!

Now is the time to buy apples. Get your supply of the following:

McIntosh Red - \$3.65
Only thirty boxes left.

Choice Cooking Apples - \$2.30
Only 25 boxes left.

Stanfield's Underwear

We are sole agents for this line. We buy direct from the manufacturer thereby assuring us of a nice clean assortment at a cheaper rate. We have all sizes in both 2 piece and combinations.

SWEATERS

See these! They are Ballantynes'. Everyone is pure wool and the prices are right.

J. M. Montgomery

"The Store that Saves You Money"

British Premier Pleads For Understanding And Peace Among Nations

London.—In outlining the Government's proposal to alleviate unemployment, Mr. Lloyd George made the following declaration in the House of Commons:

"Peace and a good understanding among nations is vital. Let us get out of the atmosphere where if you talk about a German without a frown on your brow you are not a patriot. Trade cannot start in such an atmosphere. If you intervene to make peace, your motives are misunderstood; but if Great Britain will not do it, who will? We want to see the nations begin again the task of peace."

Mr. Lloyd George, referring to trade with Russia, said there had been no restrictions on the British side to trading, but that the total trade for the first eight months of the present year had been only £3,150,000, which showed there was not an unlimited field in Russia for British or any other enterprise.

In the debate following the Prime Minister's speech, Mr. Asquith said in his judgment the question of unemployment raised the necessity for reconsideration of the entire problem of international indebtedness, including the indebtedness of the Allies to one another, and the indebtedness of their late enemies to the Allies.

Pacific Naval Base Not Named

Premier Hughes Says It Will Not Be Singapore.

Melbourne.—Premier Hughes, speaking in the House of Representatives of the Commonwealth, said the question of a British naval base in the Pacific was discussed at the recent conference of the Empire and that a decision regarding it was reached. He added, however, that the base would not be at Singapore.

Premier Hughes' reference to Singapore may be taken in connection with an article in the London Daily Sketch reviewing the rumor that Great Britain was preparing a new naval base in the Pacific and which stated it was intended to spend £2,000,000 in converting Singapore into a first-class station. The Sketch added that if an agreement were reached at the Washington armistice conference, the arrangement which included the creation of an alternative base of less importance in Australia, could be countermanded.

Bank Bandits Get Five Years Each

Sentence Given Men in Hold-Up at Elie, Man.

Winnipeg.—Six young robbers who set out to hold up the branch of the Bank of Montreal, Elie, Man., and got away with \$1,200, were sentenced each to five years' imprisonment.

The men are Henry B. Quackenbush, James Redding, Sydney L. Roberts, George W. Adams, Clarence W. Adams and David Lefler. Lefler was the man left in charge of the owner of the stolen car which the bandits used. The others entered the bank.

Portuguese Ministry Resigns

New Premier Will Likely Be Ex-Revolutionist.

London.—The Portuguese Government has resigned as a result of a successful military movement without bloodshed, says a Reuters despatch from Lisbon.

The new ministry will probably be formed with the ex-revolutionist, Manuel Maria Coelho, as premier.

A military movement broke out in Lisbon, according to a Vico despatch to the London Times. The troops seized strategic positions in the city and environs.

Bomb Sent to U.S. Ambassador.

Paris.—A bomb exploded in the home of Myron T. Herrick, the United States ambassador, seriously injuring the valet who opened the package containing it. The room in which the explosion occurred was wrecked.

Mr. Herrick arrived at the house two minutes after the bomb blew up.

Shipping Line Profit.

London.—Reuters correspondent at Melbourne, Australia, reports that Rt. Hon. Sir Joseph Cook, treasurer of the Australian Commonwealth, stated in the House of Representatives that the Commonwealth's shipping line had made a profit of 467,000 pounds sterling in 1920.

Silesian Boundary Fixed By League

Paris.—The Silesian boundary as decided by the Council of the League of Nations follows the River Oder from Oderberg as far as Nibotschau, then runs northeasterly in an irregular line as far as Hahelinde; thence running between Rossburg and Birkenheim, it turns northward as far as Lissau. Northwest of the latter place it follows the old frontier of the German empire to a point where the latter reaches the frontier already established between Germany and Poland under Article 87 of the Treaty of Versailles.

Approve Massey's Attitude

Dominion Must Share Burden of Naval Defense.

London.—A Reuters despatch from Wellington, N.Z., stated that a debate in the New Zealand House of Representatives on imperial matters closed in an atmosphere of general approval of Premier W. F. Massey's attitude. A small group of labor members criticized the Anglo-Japanese alliance adversely and objected to any alliance involving the possibility of war commitments. On the naval question a strong feeling was evidenced that the Dominion must shoulder its fair share of the burden of naval defense.

Drilling Operations Will Continue

Imperial Oil Company Will Work All Winter If Possible.

Toronto.—The Imperial Oil Company's drilling operations in the west will be continued at all the wells where work is now under way, until the existence of oil is either proven or disproven. This was the message brought back by Vice-President A. M. McQueen, who with a party of other directors and officials has just returned from a trip through the west to Vancouver.

The company is now drilling two wells in Saskatchewan and nine in Alberta, with four in the MacKenzie River district, where operations are to be continued through the entire winter if possible. The party visited the marketing stations of the company in the west, also the refineries at Regina and Vancouver.

Japs Explain Shantung Situation

Hopes China Will Enter Into Negotiations On Question.

Peking.—The Japanese minister, Yukichi Obata, has handed to the Chinese Foreign Minister, Mr. Yen, the Japanese reply respecting Shantung.

It was in the form of a memorandum explaining the Japanese position throughout the negotiations commenting on the Chinese reply to Japan on Oct. 5, and expressing the hope that China would reconsider her refusal to enter into direct negotiations on the entire question.

Two Dead From Wood Alcohol.

Strasbourg.—As a result of a party at Cymric, Sask., at which wood alcohol is alleged to have been served as a refreshment, two men are dead and five others are said to be in a critical condition.

Drs. Holman and Ferguson both of this place, have been called to attend the five sufferers, who are section men.

Canada Wins Prizes For Cheese.

London.—The prize list of the Dairy Show in the Agricultural Hall shows that the first three places in the colonial Cheddar cheese class fell to Canada. The first went to Mountainview Cheese Factory, Ontario, second to Ayr & Company, Montreal, and third to the Dominion Cheese Factory, Toronto.

Two Injured In Freight Collision.

Brandon, Man.—As the result of a rear-end collision between two Canadian National freight trains at Brandon Junction, 27 miles east of here, Allan McDonald, Swan Lake, Man., fireman, is in the hospital suffering from a broken ankle. A. F. Cooper, Winnipeg, brakeman, sustained scalp wounds.

Ontario's Lt. Gov. Fined For Speeding. Toronto.—Col. Harry Cockshutt, Lieutenant-Governor of Ontario, was fined \$10 by a county magistrate for automobile speeding.

A Red Cross Appeal For Peace

Nations Asked to Join in Campaign Against Spirit of War.

In virtue of a higher law and duty, and of principles above the level of human passions, the helping hand of the Red Cross was stretched forth to all victims throughout the ordeal of the Great War.

Today, the Red Cross owes it to itself and to all its many workers to proclaim as an ideal and a practical intention, a struggle against the horrors of war, an attempt by world-wide help and unselfishness definitely to abolish war.

The mere continuation of Red Cross activity in time of peace will no longer suffice. It is the wish of the Red Cross to work in the interest of peace.

Therefore, the Red Cross calls upon all whole-hearted citizens, irrespective of nationality, religious belief, profession, or social rank, to join, as far as lies in their power in a systematic campaign against that spirit of war, which is a constant menace to the world's peace.

During five years, millions of men were killed or maimed. Today, thousands of ex-soldiers or prisoners at last set free bear indelible marks of bodily and mental suffering. All of them believed that the generations to come would reap the fruits of the great ordeal in a new international life, which would be more brotherly, franker and more full.

Instead, disorder and uncertainty, distrust and greed, hatred and the threat of fresh quarrels are reappearing throughout the world. The spirit of war, unconquered, reigns supreme. Its sinister influence is evident. It inspires lines of policy and press campaigns, which lead public opinion astray and embitter the economic competition among nations.

During the terrible years of the recent war, superhuman efforts were required of the different nations. In order to inspire such sacrifice, a supreme reward was promised—namely, the annihilation of this same spirit of war, which is a peril as old as the world and a constant menace to mankind.

Thus generations yet unborn would have been delivered from the scourge at the price of the suffering which the war entailed. This hope sustained nations and armies.

Have they hoped in vain? Have millions of human lives and the wealth of nations been sacrificed in vain?

Faced with these questions, the Red Cross recognized a duty.

At the suggestion of Senator Ciraolo, Chairman of the Italian Red Cross, the tenth International Red Cross Conference, which met at Geneva on April 1st, 1921, voted the following resolution:

"The International Committee of the Red Cross and the League of Red Cross Societies shall address an appeal to all nations, exhorting them to combat the spirit of war, which dominates the world."

These two organizations call therefore on nations and individuals to fight with all means in their power this insidious spirit. May statesmen, writers, school and university, capital and labor remember that it is their duty, in the interest of mankind, to help peace to conquer the earth. Above all, children should be brought up in this fundamental belief.

It is essential that the human mind should once more be open to the broad lines of an internationalism, which, while allowing the citizen to love his town and the patriot his country, teaches all men to re-

WESTERN EDITORS

H. R. Way, Publisher of the Chronicle, Lacombe, Sask.

spect the existence and the rights of their fellows, by bringing into the daily life the individual light of a justice, which is to be in all the world for all the time.

This true internationalism cannot be attained without the active and intimate co-operation of governments, parliaments, voluntary organizations, the press, the clergy, and above all, National Red Cross Societies. To the union of these forces must be added a supreme factor; the power of individual conviction. Every man, as far as lies in his power, must contribute to make peace permanent in the world.

The individual must no longer see the world in the light of his own selfishness, anger, fear and human passion, but in a spirit of concord and mutual aid.

Thus only can a better future be prepared.

Faithful to the ideal which inspired its founders, and which it has ever served, the Red Cross hereby declares before the whole world, that its work does not end with war. The Red Cross appeals to the heart of all mankind, that each individual may find in himself the needful strength and determination to make and keep universal peace.

Increase In German Trade

Figures Show Decided Increase in Exports and Imports.

Berlin.—Figures showing exports from Germany during July, which have been issued here, show an increase for that month over June, while imports were also increased. The value of exports in July was fixed at 6,268,000,000 marks against 5,432,000,000 in June, while in July the imports were valued at 7,585,000,000 against 6,309,000,000 in the previous month.

Will Finance Australian Wheat Pool.

London.—A Reuters cable from Sydney, Australia, says that Premier Dooley has announced that arrangements have been made in London to finance the New South Wales wheat pool for the coming season. The Government will pay the farmers a cash advance of three shillings per bushel on delivery to the railway.

Thefts of Food Supplies Small.

London.—Thefts of food supplies sent to Russia by the American Relief Association have been very small, says a letter from Walter Brown, European director, which is quoted by the London Times.

Cut In Freight Rates In British Columbia Has Been Announced

N. S. W. Sells Grain To Germany

London.—Reuters' Sydney, N.S.W., correspondent stated that Hon. William Fraser Dunn, Minister of Agriculture for New South Wales, asserts that the Victorian voluntary wheat pool has sold a large quantity of wheat to Germany at 52 pence per bushel.

Two Minutes Silence For Armistice Day

Proclamation Will Soon be Issued to Canadians.

Ottawa.—In compliance with the request of the British Columbia Office, the Canadian Government will shortly issue a proclamation calling upon all Canadians to observe the two minutes of silence from 11 o'clock in the forenoon until two minutes after, on Friday, November 11, the anniversary of the actual signing of the armistice. Special commemorative ceremonies will be held on Monday, November 7, as provided by the act passed at last session of Parliament.

The two minutes of silence will be observed on November 11 in order to make this mark of respect to those who fell, and in memory of the war, uniform throughout the Empire. As usual, all movement will cease for the period, including ships and trains.

British Boat Sinks Wrangel's Yacht

Former Head of Anti-Bolshevik Government, Loses Fortune.

Constantinople.—General Baron Wrangel's entire personal fortune, his wife's, valued at 40,000 francs, and important documents of the Crimean Government were lost when the yacht Laucalis, on which the former head of the Anti-Bolshevik Government in South Russia, lived, was sunk by the British steamer Adria. The Laucalis ran in 70 feet of water, and it is believed divers may be able to recover part of the treasure.

Want Better Understanding

British Ambassador to U.S. Makes Special Plea.

Red Springs, N.C.—Standing under the United States flag with the Union Jack to his right and the flag of Canada to his left, Sir Auckland Geddes, British Ambassador to the United States speaking before the Scottish Society of America in session here, made a plea for a better understanding of international problems by the people—the voters of the country—whom he styled as the real rulers in democratic countries.

Hays In Command.

London.—Commodore Hays, formerly commander of the S.S. Olympic, is to command the new ship the Maesie, which will be the world's largest liner. It is now under construction.

Vancouver.—Involving a saving of at least \$200,000 annually to shippers and consignees in British Columbia and marking another successful step in British Columbia's fight for equalization of railway freight rates, judgment has just been handed down by the Board of Railway Commissioners at Ottawa, placing British Columbia on the same rate basis as that prevailing between Fort William and Winnipeg.

Announcement of the Board's ruling was received here by Secretary Hugh Culbert, of the British Columbia Division of the Canadian Manufacturers' Association.

The ruling will mean a reduction in freight costs on every car passing between Pacific coast points and points as far east as Calgary, of between \$50 and \$60.

Express Messenger Robbed

About \$30,000 Secured From C.P.R. Train No. 4.

Moose Jaw.—Investigation by officials of the Dominion Express Company established the fact that approximately \$30,000 was secured when H. Bartle, express messenger on train No. 4, C.P.R., was held up by an unknown bandit in the vicinity of Swift Current. The police, it is believed, are working on the theory that more than one man was concerned in the holdup.

Officials of the Saskatchewan Provincial Police have been scouring the Province in the vicinity of Parkburg and Chaplin in quest of the bandit, or bandits. Inspector Goldsmith, with several police officers from Regina, has been directing the man-hunt, with Moose Jaw as headquarters.

A coronor of police has been thrown about the two suspected areas in the neighborhood of Chaplin and Parkburg, and police officers have been aided in an attempt to round up the murderer.

Foreign Buyers Invade Germany

Slump of Mark Causes Run On German Stores.

Berlin.—The accelerated slump in the price of German marks has caused a run on stores in many parts of Germany by foreign buyers who, despite the enhanced prices of most manufactured articles, are still able to purchase advantageously.

The Swiss frontier, according to the Vorwaerts has been closed for cross-the-border trading in textiles, as Swiss buyers have completely stripped the frontier towns around Baden of articles of apparel. It is also reported that the Swiss watch industry is almost paralyzed on account of the cheapness of German watches in consequence of the slump in German marks.

Accept Wage Agreement

Chicago Plumbers and Carpenters Agree to End Strike.

Chicago.—Five thousand of the Journeymen Plumbers and Gas Fitters' Union, who have been on strike since the announcement of Judge Landis' wage award of \$1 instead of \$1.25 an hour, are returning to work under an agreement signed with the Master Plumbers' Association. Carpenters, who have been holding out for a wage scale of \$1.25 an hour, now are returning to work at the Landis wage scale, unofficially it was said, though no contract has been signed.

Poisoned Candy Sent to Nurse.

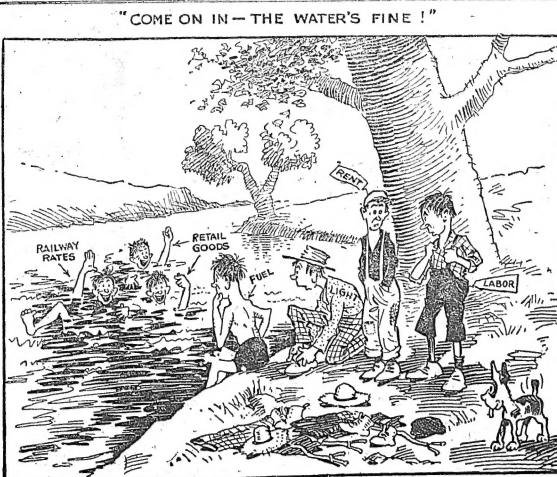

Chicago.—An exhaustive search for the sender of a box of poisoned candy, responsible for the critical illness of six nurses at the West End Hospital, is being conducted by most office inspectors.

The box came through the mail and was addressed to a 17-year-old student nurse. It contained home made fudge, analysis of which was said to show that the deadly poison permeated all the candy.

Senate Ratifies Peace Treaties.

Washington.—The senate has ratified the treaty of peace with Germany, with the reservations reported by the foreign relations committee. They also ratified the peace treaty with Austria by the same vote, and a similar peace treaty with Hungary, completing the administration's immediate peace programme with the former central powers.

Spend your money at home, thereby helping your own town and local merchants.

Back in the old swimming hole of lower prices after the winter of war—but some still linger shivering on the brink

Village of Chinook Alberta

Mortgage Sale of Valuable Farm Property

PURSUANT to the directions of the Registrar and by virtue of the Powers of Sale provided by 'The Land Titles Act,' under a certain mortgage which will be produced at the time of the sale.

There will be offered for sale by public auction at the Acadia Hotel, in the Village of Chinook in the Province of Alberta, on Monday, the 14th day of November, 1921, at the hour of 4 o'clock in the afternoon, the following property, namely:

The South West Quarter of Section Fourteen (14) in Township Twenty-nine (29) and Range Eight (8) West of the Fourth Meridian in the Province of Alberta, reserving unto His Majesty, His successors and assigns, all mines and minerals and the right to work the same.

Terms of Sale to be twenty per cent. cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserved bid and free from all encumbrances, save taxes for the current year.

The vendor is informed that the above property is situated about 2 1/2 miles from Dobson's Siding on the C. N. R., that there are no buildings and that about 45 acres have been brought under cultivation of which about 30 acres are now in stubble of last year's crop.

For further particulars and conditions of sale, apply to L. E. Ormond, Solicitor, Chinook, Alberta.

DATED at Calgary, in the Province of Alberta, this 30th day of September, A.D. 1921.

Approved

W. FORBES,

Registrar.

Hymn of the Chinook Church Brigade (On getting new sidewalk)

Our church is rather far away,
Close by some townsite knolls,
We could not go by night or day,
Thru mud, to save our souls.

"Onward, Christian soldiers,
Marching as to war"
Was right enough when roads were
When they were wet we were [fair
[not there.

We'll now be carried to the skies
On sidewalks made from trees,
No longer wade to win the prize,
Or plough thru muddy seas.

O'er that dark path no more we'll glide,
All mud and slush and badger holes,
For now we walk, no longer slide,
To save our priceless souls.

We hope when death's dark path we tread
And go where Peter guards the gate
That he may nod his saintly head
And point to four foot two by eight.

And when we join that happy bunch,
Where all is bright and fair,
We do not know, we have a hunch
There'll be no sidewalks there.

Let's count our blessings,
Let's name them one by one,
It surely will surprise us
What Tom, Smith and Meade [have done.

God bless old Tom and Smith and
[Meade,
Who took such pity on our need,
And may they also reach that shore,
To hear at last old Jordan roar.

The Big Three Days' Entertainment

Miss Gibson, advance representative of the Dominion Chautauqua, had a conference with the local Chautauqua committee, last week, at which all the details for putting the big three days' entertainment over was discussed. While conditions this year are not as good as other years, yet the committee who has this entertainment in charge are quite optimistic as to the undertaking being a financial success as well as an educational success. Remember the dates November 8-9 and 10.

Altaswede Red Clover

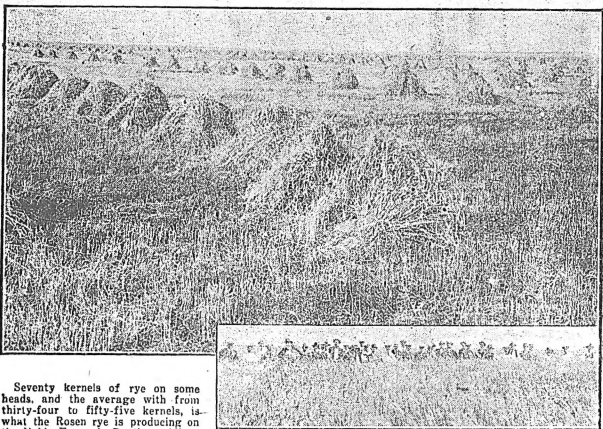

Professor G. H. Cutler of the Dept. of Field Husbandry, University of Alberta, is about to issue a bulletin on this legume crop which should be of interest to all farmers. The days of upland hay are almost over, as the vacant adjacent hay quarters in settled localities are being rapidly brought into cultivation, or utilized as pasture.

Greenfeed and Timothy are old stand-bys which do not exactly fulfill a stockman's roughage requirements, while they are a drain upon the land which raises them. Hence all practical farmers will welcome a crop which will benefit their herds and fields alike, while costing less in time and labour to produce.

Those desirous of obtaining this circular should write to Prof. Cutler at the University. In March 1920 the Press Bulletin published an account of how the Department of Field Husbandry had produced 53 pounds of a hardy Red Clover seed, which Dean Howes had introduced from seed obtained from Dr. Malte of the Dominion Experimental Farm Ottawa. It is noteworthy that Dean Howes was the first man to rightly appraise Dr. Malte's discovery at its true worth and to give him the encouragement that he deserved, by seeding it in the University Experimental plots. In this issue is given a record of its evolution during the subsequent months, calling attention to the fact that instead of 53 pounds there are now 300 pounds on hand. This record is surpassed by that of Mr. W. Chalmers, a farmer residing near Edmonton who in 1918 procured a small quantity of seed from the University and is now the happy possessor of 1,000 pounds of Altaswede Clover seed, this yield being at the rate of 200 pounds per acre. It will be remembered that Prof. Cutler took over the experimental work on this legume from Dean Howes when he arrived in 1917, and has since given it his constant attention and loving care. This work of development has been steadily followed up and at last results have been obtained which allow definite statements to be made concerning its treatment and value as a crop.

Hon. Duncan Marshall, formerly minister of agriculture in the Alberta government, has been nominated Liberal candidate for East Calgary in the federal election.

Rye Growing in Alberta

Seventy kernels of rye on some heads, and the average with from thirty-four to fifty-five kernels, is what the Rosen rye is producing on the Noble Farms in Southern Alberta. The heads are seven inches long, with the grain bursting through the chaff, and look more like winter wheat than the coarser grain.

Just what the yield will be is still more or less of a surmise, which can only be verified after the crop is threshed. From appearances, however, thirty bushels to the acre seems to be a conservative estimate over the whole area planted. In some fields, fifty bushels appear to be nearer the mark.

All, some 2,300 acres were seeded to this crop. Allowing thirty bushels to be the yield, 69,000 bushels will be harvested. At the present market price of \$1.40 per bushel, this crop alone has a cash value of about one hundred thousand dollars.

The growing of winter rye in Southern Alberta is more or less of recent origin, but it is rapidly becoming one of the staple crops on lands that cannot be irrigated. It produces heavily when conditions are not suited to big crops of spring wheat, and will minimize the danger of soil drifting. The Noble Foundation, farming thirty thousand acres in all, have always been among the pioneers of better farming methods. They have been experimenting with various kinds of rye for some time, and last fall obtained enough of this Rosen rye to seed two thousand acres. It is claimed that this

variety will outyield the ordinary kinds two to one. Whether this is true or not, the yield was sufficiently promising to persuade Mr. Noble to make it his biggest crop this season.

He has now some twelve thousand acres in summerfallow, and eight thousand acres of this will be sown down to Rosen Rye. Naturally, this considerably reduces the area left to be seeded to wheat and other spring crops, but Mr. Noble considers he will not lose anything by the change. He has found that rye is a more pure crop; and, given conditions that would produce a fifteen or twenty bushel yield of wheat, will produce twice as heavily.

The biggest advantage, though, is that all the Noble eggs will not be in one basket. If conditions are not favourable for a big wheat crop, then the chances are that the rye will make up the deficiency. It is the basis of mixed farming applied to the grain grower.

In the past there has always been a mad rush once spring opens up, to get the grain in the ground in time. It is no easy matter to seed ten or twelve thousand acres to wheat within the short period at the farmer's disposal. By putting half the acreage into fall-sown crops such as

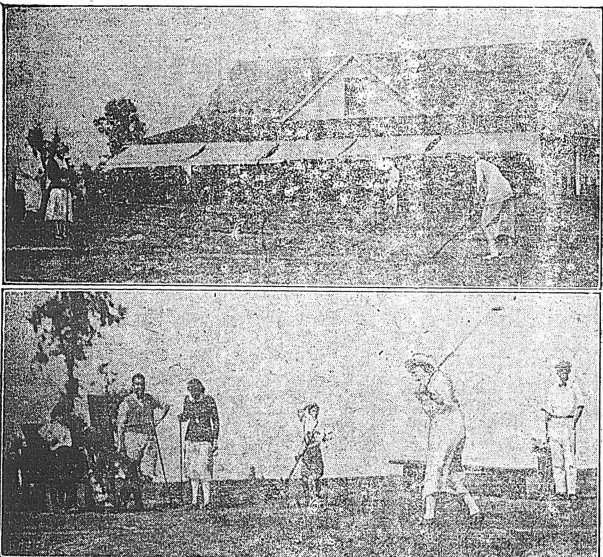

rye, the spring seeding is cut in two and more time is allowed for summerfallowing before the heaviest rains come. Mr. Noble believes that the secret of his success is proper summerfallowing and he maintains that "The summerfallowing plow should be going during seeding time if at all possible, then the work will be done by June 1, and every bit of winter moisture as well as what may be received during the summer, will be conserved. That is why winter rye is going to catch on in Southern Alberta—it will lighten the spring work and make for better summerfallowing, besides spreading the harvest season out more in the calendar."

Mr. Noble's opinion carries weight, too, for he has always had the crops to back up his convictions. In 1918 he made a world's record for a thousand acre field by threshing 54,000 bushels of wheat, or an average of fifty-four bushels per acre. In 1920 the value of his crops was close upon one million dollars. Starting with a half section of 329 acres, he has gradually extended his holdings until they now total 32,000 acres, of which, 25,000 are in cultivation—a practical demonstration of the value of scientific farming.

F. J. COWDERY,

Chinook Chautauqua, November 8-9-10

The Pleasant Game of Golf

Upper picture shows the Golf Club house at St. Andrew's by the Sea.

Lower picture—On the Golf Links at St. Andrew's by the Sea. There are innumerable picturesque scenes like this.

Golf is now universally recognized as an ideal game for men who lead sedentary lives. It encourages walking, the most health-giving of all exercises; it provides a fascinating recreation, it employs muscles that would otherwise be rarely exercised, and it is played under conditions that conduce to the highest possible enjoyment. The extraordinary hold this old Scottish pastime has taken on this continent is phenomenal, and it has happened within the present century. Only half a century ago it was mostly confined to Scotland.

It had been played for centuries. Then the unexpected happened. From being deemed as an amusement for elderly people, it rapidly jumped into a commanding position to say that both are owned by the links the sea is always in view. There are two courses, one of 9 holes and one of 18 holes. Both are fit for the play of the greatest exponents of the game, and they are kept in the best possible condition. The links are adjacent to the magnificent Algonquin Hotel. A sufficient recommendation for links and golf is to say that both are owned by the links the sea is always in view. There are two courses, one of 9 holes and one of 18 holes. Both are fit for the play of the greatest exponents of the game, and they are kept in the best possible condition. entails the production
of poisons that must
be eliminated regularly
and thoroughly.

Largest Sale of Any Medicine in the World.
Worth a Guinea a box.
Sold everywhere in Canada. In boxes 25c, 50c.

Trucks in Western Provinces

Value of the Truck in Hauling Grain
To Market

In the western provinces of Canada the farmers are all future truck-buyers. Many of these farmers are situated at from ten to sixty miles from railroads. The estimated cost for hauling grain is .03 per bushel per mile.

A good team of horses will haul 75 bushels at a speed of 2 1/2 miles per hour.

A two-ton truck will haul 80 bushels on a 20-mile trip in two hours and return in two hours, making two trips per day over good roads!

At a recent meeting of the Grain Growers in Saskatchewan, when this fact was pointed out to them, many got busy with pencil and paper and soon figured out where they could save the price of a truck in one season.

Minard's Liniment used by Physicians

New Alberta Bank
Application is being made for the incorporation of a "Bank of Alberta" with headquarters at Edmonton. A capital of \$2,000,000 is proposed, largely to be subscribed to by the farmers of the province, and branches will immediately be opened at Edmonton and at Calgary.

Seed Growing in B. C.
The United Seed Growers at Penitence, B.C., expect to seed 300 acres for vegetable seeds this year and 100 acres for sugar beet seed production in 1921. This district, and in fact the whole province, has made enormous strides in the growing of fine seed.

In Thibet the people salute their superiors by taking off their hats and thrusting out their tongues three times.

**Applied
After Shaving**
Keeps the Skin Soft and
Smooth

MANY men suffer from
irritation of the skin
as a result of shaving. With
some it assumes a form of
eczema and becomes most
annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are cured.

50 cents a box, all dealers, or Edman, 200

Atrocity Stories are Revived

To Create Prejudice Against Lloyd
George's Policy of Soviet
Negotiation

London.—The resumption of hostilities between the Poles and Bolsheviks coincides with the opening of the Northcliffe newspaper campaign, plainly intended to create prejudice against Lloyd George's policy of negotiation with soviet Russia. The Times devotes a leading article to a revival of the atrocity stories and comments on the case of the Reverend and North, a British Chaplain in Moscow throughout the revolution, who was arrested on a charge of being associated with the British secret service. The Times states that the true reason for his detention is that Lenin fears the effect on the outside world of North's evidence respecting the real conditions existing under sovietism.

Northcliffe's organ accepts as trustworthy the assertion that "Lord Lansbury, the British Socialist, was carefully sheltered during his recent visit to Moscow. The city, it is declared, was specially lighted. British prisoners were provided with better food. All workmen had strict orders to behave in circumspect manner. After Lansbury's departure, Moscow reopened into its usual chaos. The Times predicts that the British labor delegation, which left for Russia this week will be similarly hounded and shown only what the Bolsheviks think fit. Reverend North, it is claimed, is the only living Englishman able to give a true account of the Moscow atrocities, and hence his arrest.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California Syrup of Figs" only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Doukhobor Land for Sale

Twenty-Six Parcels Were Sold And
Eleven Farm Units Remain
To Be Disposed of

Surrendered Doukhobor lands aggregating about 10,000 acres in the vicinity of Kamask, Sask., were disposed of by ballot to soldier settlers under the federal soldier settlement board regulations on April 30. 26 parcels were sold and 11 farm units remain to be disposed of.

This closes out the last of the government lands held by Doukhobors which gave the Dominion government so much trouble some years ago when these people were settling on their homesteads in Saskatchewan.

Survey of Physicians

In a survey prepared by the Faculty of Medicine of the University of Toronto, in connection with the prospective gift of \$5,000,000 from the Rockefeller Foundation for Medical Research in Canada, it is shown that Toronto has one doctor to 567 of population; London, Ont., one doctor to 711; Hamilton, Ont., one doctor to 790; and Ottawa, Ont., one doctor to 840. Ontario leads in the roll call of provinces with one doctor to 766 of population. British Columbia comes next with one doctor to 905; Nova Scotia, with one doctor to 1,008; and Manitoba, fourth, with one doctor to 1,146.

Seager Wheeler is Honored

Queen's University has conferred the honorary degree of Doctor of Divinity on Rev. C. S. Young, of Saskatoon, and the degree of Doctor of Laws on Seager Wheeler, Rosthern, Sask.

Wonders of Wireless

But Mars Declines to Talk to This Planet

The message from Mars, for which Dr. Frederick H. Miller, noted scientist in wireless, searched interstellar space from his giant receiving plant near Omaha, Nebraska, did not materialize. If there were such a message passing through the ether for the fifty millions of miles which separates the earth and Mars it did not come sufficiently close to the earth to be picked up by the great receiving station which Dr. Miller has established on the banks of the Platte River.

For nine hours Dr. Miller and his assistant, L. H. Gamor, searched space for the signals which Mars is thought to be sending earthward.

The first half of the night the wireless instruments were badly interfered with by static. Through the delicate receiving instruments came the crackling of lightning and other electric sounds to such an extent that no signals anywhere could be received. The receiver was gradually tuned to its full length of wave. Starting at a short wave, its capacity was gradually increased. As its radius was extended the world's wireless business was picked up.

First a school station in Kansas was talking. Next Hawaii was picked up, tending to San Francisco. Then Berlin was heard calling the city of Mexico. Again a station on the coast of Venezuela sent a message to Madrid, then Valparaiso talked with London.

Through and past all these zones, Dr. Miller tuned his receiver until all sounds had ceased. He was in the infinite. Back and forth his apparatus flitted, his range length receiver running the gamut from 16,000 to 300,000 and more. But not a sound came over the waves after the earth zone was past.

The scientists kept this up until daylight. Then Dr. Miller issued the following bulletin:

"The early part of the evening we were troubled with heavy static, so that it was impossible to hear anything except station in South America, Europe and the United States. During the latter hours of the night, when the wireless was stretched to its fullest extent to hear inter-planetary communication, we heard nothing that could be construed as a message from Mars."

Bulletin on Bee-Keeping

Published by the Manitoba Department of Agriculture

At present a great many people in Western Canada are enquiring as to where they can purchase bees, declaring their desire to take up the bee-keeping industry. To assist all such, and also all others who may be interested, the Manitoba Department of Agriculture has published a new 24-page illustrated bulletin entitled "Bee-keeping in Manitoba." This bulletin is written R. M. Muckle, B.S.A., special lecturer in beekeeping, who has had many years experience in bee-keeping in Manitoba, and has had a wide opportunity, in connection with his departmental activities, of observing the beekeeping possibilities of all parts of the province. A free copy of the bulletin may be had on application to the Publications Branch, Manitoba Department of Agriculture, Winnipeg.

High Prices Are Result of the War

Declaration on Economic Conditions
That Present Situation Is
Not Abnormal

The disorganization of the whole economic position of Europe due to the war is reflected in the rise of prices which is at present the source of universal discontent among the peoples, belligerent and neutral alike, says a declaration on the economic conditions of the world, approved by the supreme council on March 8, and tabled in the house of commons. "High prices are the inevitable result of war," the declaration states, "and in comparison with most wars, the present situation is far from abnormal. In the Napoleonic wars, the prices in England rose 75 percent and took eight years to become normal again. "In the American civil war prices rose 100 percent, and took twelve years to become normal."

Keep Minard's Liniment in the House

New Gold Discovery
Gold has been discovered on Snake Creek, eight miles north of Okotoks, and 20 miles south of Calgary. Prospectors have been flocking to this locality, and many miles of claims have been staked. A sample analysed by the Calgary city chemist assayed \$18.50 to the cubic yard of sand.

Allocation of German War Vessels

Six Warships For Great Britain; Also
124 Submarines

Six former German warships, the Beben, Heiligoland, Posen, Rhineland, Westphalen and Nurnberg, and 124 submarines have been allocated to Great Britain. The United States will get the Ostfriesland and Frankfurt.

According to the announcement, France has been awarded the Thuringen and Emden and 28 submarines, Japan will get the Oldenburg, Nishuwa and Augsburg, and Italy will receive seven submarines. The ships stationed at Scapa Flow, says the announcement, are to go to Great Britain. Allocation of the remaining 12 light cruisers, 59 destroyers and 50 torpedo-boats, depends on the selections made by France and Italy from the ships to be surrendered under the Austrian treaty.

DELICATE GIRLS MADE STRONG

Rich, Red Blood Needed to Keep Up
Their Vitality

If growing girls are to become well developed, healthy women, their blood supply must be carefully watched. Mothers should not ignore their unsettled moods or the various troubles that tell of approaching weakness. It should be constantly borne in mind that pale, bloodless girls need plenty of nourishment, plenty of sleep and regular outdoor exercise. But a lack of appetite, and tired, aching limbs tend to hinder progress. To save the weak, thin-blooded girl she must have rich, red blood and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only give and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, and promptly restoring health and strength and transforming anemic girls and women into cheerful, happy people. Among the thousands who have obtained new health and strength through the use of Dr. Williams' Pink Pills is Miss Violet Booth, Glenora, Ont. "For a long time I was in a badly run-down condition. I was pale, breathless at the least exertion, and could hardly do any household work without stopping to rest. I often had severe headaches, and my appetite was poor and feeble, and I could not get up in the morning without feeling the least bit rested. I had tried several medicines, but did not get benefit from anything until I began the use of Dr. Williams' Pink Pills. When I had taken two boxes I could see an improvement, and after using six boxes I found my health fully restored. I feel altogether differently since I used the pills that I strongly advise them for all weak, run-down girls."

If you are weak or ailing in any way, avail yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in perfect health. These pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 by writing The Williams Medicine Co., Brockville, Ontario, Canada.

Farm Women's Institutes

The Alberta farm women's institutes are the now the largest in the Dominion, with a membership of more than 13,000. During the year 1919, 32 branches were organized in the province making a total of 265. Activities include classes in cooking, sewing, sociology, child welfare and the undertaking of relief work.

The North Sea takes the drainage of a quarter of Continental Europe besides that of half of the British Isles.

CHILDLESS WOMEN

Please Read This Letter And
See What Normal Health
Will Do For You.

Berwick, Ont.—"I had organic trouble, and after taking Lydia E. Pinkham's Vegetable Compound and Blood Medicine all my troubles passed away. I was made strong and well and have been able to enjoy my life. I have a fine baby boy six months old, and I know that I would not have this baby and child if I had not used your medicine. My husband and myself say that your remedies are worth their weight in gold, and I recommend them to my friends. One of my aunts is taking them now."

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published in these columns.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

WAGSTAFF'S
Real Seville
Orange
Marmalade

All Orange and Sugar—
No other young. SPONSOR'S
Bottled with care in Silver Pans.

ASK YOUR GROCER FOR IT.

COLT DISTEMPER

You can prevent this loathsome disease from running through your stable and cure all the colts suffering with it when you begin the treatment. No matter how young, SPORN'S DISTEMPER COMPOUND is safe to use on any colt. It is wonderful how it prevents distemper, no matter how cold or horses at any age are "exposed."

SPORN MEDICAL COMPANY, Goshen, Ind., U.S.A.

Lake Windermere Camp

New Resort to be Opened on Shores
Of Lovely Lake In
Rockies

There will be opened to tourists this summer, a new resort of rustic design in the Canadian Pacific Rockies on the sandy beaches of Lake Windermere, the loveliest warm water lake in the Canadian Pacific.

Lake Windermere is situated about 170 miles south of the main line of the Canadian Pacific and is reached from the main line at Golden, the station being Lake Windermere. The scenery of this region, combining as it does pastoral softness with rugged mountain grandeur, will attract visitors from all parts, and become a favorite playground.

The summer visitor will find here everything that he could wish, bathing, boating, riding on mountain ponies to great Canyons and Glaciers, golf, automobilism, fishing and big game hunting in season.

The Canadian Pacific are erecting a number of cabins fully equipped with the conveniences of the modern home, which will be opened July 1st. Community hall for dancing and social recreation.

An auto road from Banff is in the course of construction by the Dominion Parks Board.

How's This?

We offer \$100.00 for any case of CATARRH that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the Mucous Surface of the Sufferer. Sold by druggists for over fifty years. Made in Canada. Free literature from R. J. Chesley & Co., Toronto, Ont.

Cold-Proof House

House Has Been Built to Keep the
Cold Out and the Heat In

A house has been built in Saskatoon on the refrigerator plan, save that whereas a refrigerator keeps the cold in, the house has been built to keep the cold out and the heat in. It has been so successful during the last winter that it may be said to merit the term "cold-proof."

The owner is Mr. H. Gauvin, a refrigerator engineer.

The house was built of cement and care was taken that there should be no means whereby the warm air in the house might travel up the walls, and escape through a crack or down the inner surface of the outer wall, and so lose its heat. To this end the walls were so built as to eliminate air pockets of appreciable size. The house had a concrete basement, and here again the builder took care that the cold air would not leak into the house.

It must not be thought that the house was hermetically sealed, for it has 43 windows to the nine rooms. But there are only two entrances, one in the front and one in the rear. During the winter the house was heated throughout by electricity, without undue expense.

Australian Sheep

Russian Farmer is Experimenting
With Business at Hague,
North of Saskatoon

A new branch of the livestock industry which has not hitherto been attempted in Saskatchewan and which as far as is known, is new in Canada, is being attempted at Hague, north of Saskatoon, where a Russian farmer by the name of David Krokher is experimenting in the cultivation of the astrakhan variety, from which is obtained the fur popularly known as "Persian lamb."

Mr. Krokher has started the cultivation of this variety on small scale by the importation of a ram of the species from New Mexico, for which he paid \$300 and is hoping in time to have a farm stocked with astrakhans by crossing with the ordinary sheep of commerce.

Maintaining Efficiency Of Agricultural Land Is Greatest Problem

C. H. McDowell, speaking recently before the Chicago section of the American Chemical Society, made the following among other statements, which Canadian farmers would do well to ponder:

"The explosion of the huge chemical works at Oppau, where fertilizers were made through the fixation of atmospheric nitrogen, has demonstrated to the world the great resources for replenishing the richness of her fields which Germany had at hand.

"Although our country is 15 times as large as Germany," said Mr. McDowell, "we produce only the same amount of barley and not quite twice as much oats. Germany produces six times as many potatoes and 12 times as much rice. When the war broke out, Germany had five millions of farms, averaging 15 acres, and we had 6,340,000 farms, averaging 138 acres. These German farms produced 40 per cent. more wheat, rye, barley, oats and potatoes, taken together, than we produced. Within the last 30 years Germany has increased her yield per capita from 15 to 29 bushels, while the United States increased from 14 to 16. Germany increased her per acre yield of wheat from 19 to 30 bushels; the United States from 13 to 15 bushels. Germany increased the yield of barley from 21 to 39 bushels; the United States from 24 to 24.5 bushels. With only one-fifth of the land area, Germany shows an agricultural efficiency of about six times that of the United States.

"We are at the present time on trial in our United States agriculture," continued Mr. McDowell. "With a sparse population and a broad area of uncultivated land, a nation can choose culture, but with a densely populated country there can be no choice. The intensive method must be followed. We of the United States have been a wasteful people. We have had too much land and have moved from State to State in search of the more fertile spots in the soil of the country to maintain the producing power of our conquered area.

"Large populations and low crop yields," added the speaker, "do not go together. In this country our population is rapidly growing and we must more fully utilize the means of our future development. Our population is increasing and our lands at the same time are being depleted. Our ditches are all lined with the fertility of our farms that were dug to drain. From our rivers we lose annually 600,000,000 tons of fertility, thereby diminishing productivity at a rapid rate. Our sewer pipes are taking from our farms 50,000,000 tons of fertility annually. The crops that are taken from the field, and never get back in any form, take 30,000,000 more tons of fertility from our lands each year.

"In the face of these 'undeniable facts,' declared Mr. McDowell, 'our population will be, according to Mr. Edward M. East, of Harvard, more than doubled by the year 2000. At the same time he shows that, according to our present methods of agriculture and our present rates of food and clothing consumption, 157,000,000 is our ultimate population limit.'

Mr. McDowell urged that the time had come for the engineer, and especially the chemist, to consider what must be done to maintain the agricultural efficiency of the country and to replenish the soil. The engineer must aid in preventing erosion of the land and the devastation of the forests, while the problem of the chemist is fertility.

The speaker closed by saying that unless these vital problems were solved in the near future, coming generations will find their food supply, re-ventually, to a point where degeneration of the race sets in, and there will be conditions here similar to those now obtaining in the Orient.

Vancouver Firm's New Industry, Stonelite Products, Limited, will shortly commence manufacturing building materials from smelter slag, decomposed granite and crushed limestone. "A brick from sand and sawdust is also to be made and a paint which, it is claimed, is fireproof.

First to Cross North America. Sir Alexander Mackenzie of the North-West Fur Company was the first man to cross North America by a route north of Mexico. He reached the shore of the present Province of British Columbia on July 22, 1782.

Three Die Every Two Seconds. There are about 1,400,000 inhabitants on the globe. Of these 50,000,000 die every year, 127,731 per day, 5,355 per hour, about 90 per minute, or three in every two seconds.

Fertilizer Found In Alberta

Investigation Will Prove Invaluable to Agriculture in Province.

Supplementing the soil survey which is now in progress, the Scientific and Industrial Research Council of Alberta is preparing to undertake an investigation of possible sources of fertilizers in the Province. It is generally known that most of the elements that go to make up the various fertilizers are to be found in certain parts of the Province, and as soon as the survey is completed, steps will be taken to see what fertilizers are needed by different portions of the Province, and the location of the nearest raw materials that go to make up the needed fertilizer. In connection with the investigation, it may be mentioned that ammonium sulphate, a coal by-product from cement mills, and also occurring in nature, can be secured in quantities in Alberta. Gypsum also exists in commercial quantities. The research commission will investigate the fixation of nitrogen by hydro-electric power and the possible sources of phosphates. A thorough chemical examination of the naturally occurring salts in the soil of the Province will also be made, and it is expected that the soil survey, supplemented by the work of the research commission in regard to fertilizers, will prove of invaluable aid to the agricultural industry of Alberta.

Seed Grain Distribution

Farmers Should Apply Early to Avoid Disappointment.

The annual free distribution of samples of seed grain will be conducted as usual at the Central Experimental Farm, Ottawa, by the Dominion Cerealist.

The following kinds of seed grain will be sent out this season: Spring wheat (in about 5-lb. samples); white oats (about 4-lb.); barley (about 5-lb.); field peas (about 5-lb.); field beans (about 2-lb.); flax (about 2-lb.).

Only one sample can be sent to each applicant. Applications must be on printed forms which may be obtained by writing to the Dominion Cerealist, Experimental Farm, Ottawa.

As the stock of seed is limited, farmers are advised to apply early to avoid disappointment. Those who applied too late last season are particularly requested to send in their names at once so that application forms may be forwarded to them. No application forms will be furnished after Feb. 1st, 1922.

Sand Kills Forest Trees

With Exception of Knots Wood Is Worn Away.

In few places is the destruction of forests by sand more impressive than among the dunes of Coos Bay, in southwestern Oregon. Everywhere there is a succession of bold headlands covered by a forest of fir and spruce, and to the north miles of rolling sand dunes stretching inland like a desert with patches of willow and beech plants here and there, and in the distance clumps of trees and over large areas of forests making a last stand against the encroaching dunes.

The sand-laden wind makes curious etchings on stick and timber and eventually wears away all the wood except the knots. The forests consist mainly of Douglas fir, Sitka spruce, Port Orford cedar and western red cedar within the area of the dunes and exist now only in patches, almost always in depressions, the former level of the ground. As the wind builds up the advancing crests of the dunes, it often hollows behind them and exposes the skeletons of a dead forest. When the hollows are large, a green, grassy meadow, the home of numerous moists, sand loving plants, springs into being.

Old Saying Verified.

"You nearly ran over those people," said the traffic cop, stopping the motorist.

"Sorry, officer. You see I just got this car, and—"

"What's your name?"

"Little."

"Ah! A little learning is a dangerous thing," chuckled the cultured cop, and he was so tickled with his joke that he let the transgressor go free.—Boston Transcript.

A postcard mailed by a New York clergyman on May 1, 1901, addressed to a friend in Scotland, has just reached its destination.

In some parts of China labor is so cheap that there is no coin small enough to pay for a day's work.

The Accident Of Birth

No One Can Choose Their Nationality Or Position.

A deer isn't necessarily a deer because of choice. A bird can't help being a bird, or a toad a toad, or a lizard a lizard, or a snake a snake. They are what they are because they had no word to say about their creation. They have to be just what they are, even as you and I.

And the moral is that you should not feel above another because of the accident of birth, for you had nothing whatever to do with it. Through the miracle of reproduction everything is born, and what it happens to be, it is. A "nigger" isn't a "nigger" because he wants to be a "nigger," but because he finds himself here on earth with a black skin and can't change it.

So it is well not to belittle another because he is a Jew, or a German, or a Swede, or an Italian, or a Chinaman, or whatnot. It is well not to look down upon another because he or she is homely or poor or lame or weak-minded. It is well not to kill deer or toads or lizards or snakes unless necessity demands it.

Don't see you might be a Jew or a German or a Swede or an Italian or a Chinaman if the protozoan from which you sprang had happened to be allotted to you by the Creator?

You might be a toad or a lizard or a snake or a deer, and surely it would be cruel for some one to beat you to death with stones or clubs, or shoot holes in you with a gun.

Whatever you are, try to be a good one. Don't take advantage of the accident of birth to ridicule or kill other things unless sheer necessity calls for it. Life is a precious possession, and so is happiness. So long as you want to live and be happy, why not let other living creatures live and be happy too?—Bert Moses in Newspaper.

World's Biggest Clock

Liverpool, Eng., claims to have the biggest clock in the world. Its dial is 25 feet in diameter, two feet more than that of "Big Ben," the famous Westminster clock, its hands are 3 feet longer and the size of its numerals are 3 feet as against Big Ben's 2 feet.

Too Good a Shot.

"Brown is a good shot, isn't he?" "Very good. We were practicing with our guns at my country place the other day, and he hit the bull's eye the first time." "Very clever." "Yes; but he had to pay for the bull."

Potatoes seldom grow larger than marbles in Greenland.

Discover New Klondike

Rich Gold Strike Made at Cariboo, B.C.

Old miners who have just arrived from Cariboo, say that a small new Klondike has been discovered there. A very rich gold strike has been made, but there is no information so far about how extensive it might be. Eight miles from Quesnel dam in old creek bed has been prospected recently. Several very large nuggets have been found and individual miners are taking out as high as \$35 per day. Great excitement prevails in the Cariboo and Quesnel districts where several millions of dollars were taken out of the placer workings of the early days.

Many claims have been staked and arrivals at Ashcroft state that nuggets and coarse gold worth \$1,200 were secured by one man.

Restore Citizenship Of Japan Graduate

Dr. Eschsch has Been Practising Medicine In Persia.

Dr. S. O. Eschsch, who graduated from Queen's University 18 years ago, and has since practised divinity and medicine in Persia, has been given permission to enter Canada. His citizenship lapsed during the war and on his arrival at Vancouver via the United States, he was challenged by the Immigration authorities.

Friends in Toronto interceded on his behalf, and the Department of Immigration has restored his Canadian citizenship. Dr. Eschsch's wife was killed in a raid by Turks during the war.

Warships For Sale

Buyers Must Guarantee They Will Be Broken Up.

There are about two hundred obsolete warships which the British Admiralty want to sell lying in ports around the British Isles. Anyone can buy a battleship or light cruiser if he is willing to give a guarantee that it will be broken up and not used for war purposes. Every part of a ship is dismantled and disposed of, and all the delicate scientific instruments are sold.

It takes forty men twelve months to break up a warship. Those ready to dispose belong to the 1905 to 1908 classes, and include Dreadnoughts and lesser types of vessels.

Instead of cash, the missionaries in Australia ask the farmers for grain.

Resin in wood gives twice as much heat as the wood itself.

Country In Vicinity Of Nelson River Suitable For Farming

Edison's Snow

Eating Device

Machine Will Pack Snow Into Compact Ice Blocks.

Engineers interested in snow removal from city streets have considered perfecting a machine built forty years ago by Thomas A. Edison, but left in an experimental stage because the inventor turned his work into other fields.

This machine, drawn by a horse, devoured the flakes and disgorged them in icy blocks which occupied only one-tenth the space of the fallen snow and made removal easy. In a letter from Mr. Edison, recently read at a forum on "snow removal in cities," the inventor expressed belief that a competent engineer could readily figure out an efficient means of improving and modernizing his invention.

Stocktaking Of Forests

Time is Never Spent On Calculating Timber Position.

Many tens of thousands of pounds are spent every year in calculating the world's cereal crops. Yet in the case of cereals by the natural laws of supply and demand a few seasons' effort can meet the world's requirements. I would ask you to consider how much money is spent in the whole Empire in calculating what will be the timber position in ten or twenty or fifty years' time. Yet to plan, establish, mature and harvest a timber crop will rarely take less than a century.—Lord Lovatt at Empire Timber Conference.

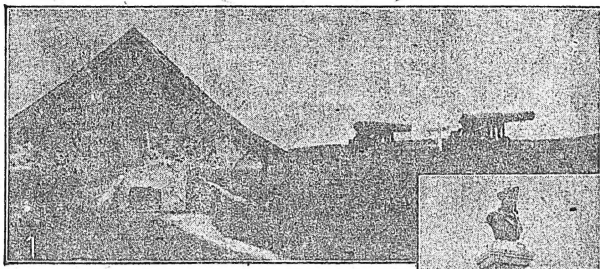

A drop of the oil of kindness for a complaining neighbor has the same effect that a drop of oil has on the squeaking, complaining wheelbarrow.

We can only have the highest happiness by having wide thoughts, and much feeling for the rest of the world as well as for ourselves.

Nothing is firm but the positiveness of truth. Don't make positive lines that are not true.

The average man can lift one and a half times his own weight.

Historic Events at Annapolis Royal

(1) The second powder house of the fortress erected in 1708 at Fort Anne, Annapolis Royal, Nova Scotia, the walls are 4 1/2 feet thick. The first powder house was too damp.

(2) Monument erected by the Canadian Government at Fort Anne to the illustrious memory of Lieut.-General Timothee Pierre du Gast, Sieur de Monts the pioneer civilization in North America.

Annapolis Royal, Nova Scotia, has been the scene of many historic celebrations in recent years. An addition to the number was added on August 31st, 1921, when three tablets were unveiled.

Amongst those identified with the event were: Hon. MacCallum Grant, Lieutenant-Governor of Nova Scotia; Hon. Justice Chisholm; Hon. Chief Justice Harris; Hon. George H. Murray, premier of Nova Scotia; Hon. Sir James Aikens, president of the Canadian Bar Association; Hon. Sir James Loughheed, Minister of the Interior; His Worship Mayor B. B. Harwick; Hon. Justice Chisholm; and P. C. Whitman, vice-president of the Historical Association of Annapolis Royal; Mr. F. M. Fortier, superintendent of Fort Anne; and a committee of Annapolis Royal citizens.

Hon. George H. Murray, Premier of Nova Scotia, presented the first tablet, which bears appropriate historical emblems and the following inscription:

1621-1921.

The tablet, placed here by the Government of the Province of Nova Scotia, A.D. 1921, commemorates the three hundredth anniversary of the issue of the charter of New Scotland, by King James I. of England and VI. of Scotland, A.D. 1621.

The birth of an idea which lived, and had its final fruition in the taking of this Fort and conquest of Acadia in the reign of Queen Anne.

Hon. MacCallum Grant, Lieutenant-Governor of Nova Scotia, unveiled the first tablet.

Hon. Chief Justice Harris, Hon. Sir James Aikens and other speakers on behalf of the legal profession, unveiled the second tablet, inscribed as follows:

This tablet, placed here by the Bench and Bar of Canada, A.D. 1921, marks the two hundredth anniversary of the establishment and sitting (in this Fort), A.D. 1721, of the first Court administering English Common Law within what was now the Dominion of Canada.

"Law Hateth Wrong."

Wingate: Maxims, No. 146.

Mr. P. C. Whitman, vice-president of the Historical Association of Annapolis Royal, presented the third tablet, the inscription on which is as follows:

This tablet, erected A.D. 1921, under the auspices of the Historical Association of Annapolis Royal, commemorates the one hundredth anniversary of the arrival in this town of Thomas Chandler, Halliburton, who lived here eight years and began in

this place his great career in Law, Literature and Public Life.

In the evening there was an open meeting of the Historical Societies in the Bijou Theatre, beginning at 8 o'clock sharp, and a band concert in the Fort, beginning about the same hour.

At the meeting in the theatre the Hon. Justice Chisholm, president of the Nova Scotia Historical Society, took the chair, and papers were read by Colonel Alexander Fraser, L.L.D., "The Royal Charter of Sir William Alexander"; Dr. J. Murray Clark, K.C., "The Relations of the British Dominion of Virginia with the Dominions of Canada"; Dr. Charles Morse, D.D.L., K.C., on "The Courts and the Commonwealth"; and John Irvin, K.C., on "A Philosophical Examination of the Spirit of Nova Scotia's First Criminal Laws."

Manitoba Will Be Represented. A carload of horses and one of cattle and swine will be sent from Manitoba to the International Stock Show at Chicago in December. This was decided at a meeting of the executives of the Cattle, Horse, Sheep and Swine Breeders' Association held recently in the Dunvegan country.

Oh, Money! Money!

— BY —
ELEANOR H. PORTER

Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued)

"I've come to see you about a very important matter, Maggie," she announced, as she threw off her fur—no new ones—and unbent her coat—which also was not new.

"Then certainly I will take myself out of the way," said Mr. Smith, with a smile, making a move to go.

"No, please don't," Mr. Jane held up a detaining hand. "Part of it concerns you, and I'm glad you're here, anyway. I should like your advice."

"Concerns me?"

"Yes, I'm afraid I shall have to give up boarding you, and one thing I came today for was to see if she'd take you. I wanted to give poor Maggie the first chance at you, of course."

"Chance at me?" Mr. Smith laughed—but unmistakably he blushed. "The first—but, my dear woman, it is just possible that Miss Maggie may wish to—er—decline this great honor which is being conferred upon her, and she may hesitate for the sake of my feelings, to do it before me. Now I'm very sure I ought to have left at once."

"Nonsense!" (Mr. Miss Maggie blushing the least bit, too) "I shall be very glad to take Mr. Smith as a boarder if he wants to come—but he's got something to say about it, remember. But tell me, why are you letting him go, Jane?"

"Now this surely will be embarrassing," laughed Mr. Smith again nervously. "Do I eat too much, or am I merely noisy, and a nuisance generally?"

But Mrs. Jane did not appear to have heard him. She was looking at Miss Maggie, her eyes southerly intent. "Well, I'll take you, it's Hattie."

"Hattie!" exclaimed two amazed voices.

"Yes. She says it's perfectly absurd for me to take boarders, with all our money; and she's making a terrible fuss about where we live. She says she's ashamed—positively ashamed of us—that we haven't moved into a decent place yet."

Miss Maggie's lips puckered a little. "Do you want to go?"

"Yes, only it costs so much. I've always wanted a house—with a yard, I mean; and it would be nice for Mellicent, of course."

"Well, why don't you go for you have the money?"

"Yes, I know I have; but it'll cost so much, Maggie. Don't you see? It costs not only the money itself, but all the interest that the money could be earning. Why, Maggie, I never saw anything like it. Her face grew suddenly alert and happy. "I never knew before how much money, just money, could earn, while you didn't have to do a thing but sit back and watch it do it. It's the most fascinating thing I ever saw. I counted up the other day how much we'd have if we didn't spend a cent of it for ten years—the legacy, I mean."

"But, great Scott, man!" exclaimed Mr. Smith. "Aren't you going to spend any of that money before ten years' time?"

Mrs. Jane fell back in her chair. The anxious frown came again to her face.

"Oh, yes, of course. We have spent a lot of it, already. Frank has bought out that horrid grocery across the street, and he's put a lot in the bank, and he spends from that every day. I know, and I'm willing to spend some, of course. But we had to pay so much inheritance tax and all that it would be my way not to spend much till the interest had sort of made up, you know; but Frank and Mellicent—they won't heart to it a minute. They want to my way, and they're teasing me all the time to get new clothes, both for me and for her. But Hattie's the worst. I can't do a thing with Hattie. Now what shall I do?"

"You should move. You say yourself you'd like to," answered Miss Maggie promptly.

"What do you say, Mr. Smith?"

"I think you should. I've got to trust his hands into his pockets as he took a nervous turn about the room, before he spoke.

"Good heavens, woman, that money was given to you—that is, it was probably given to you to use. Now, why dilly you are you?"

"But I am using it," argued Mrs. Jane earnestly. "I think I'm making this sort of mistake out of it, and I put it where it will earn more, don't you see? Besides, what does the Bible say about the man with one talent? That wasn't it?"

"With a jerk Mr. Smith turned on his heel and renewed his march."

"I think the money is good for it to exchange it for something you want," observed Miss Maggie, contentedly.

"There, that's it!" triumphed Mr. Smith, wheeling about. "That's exactly it!"

"Jane sighed and shook her head. She gazed at Miss Maggie with fondly reproving eyes."

"Yes, we all know the ideas of money, Maggie. You're very sweet and dear, and we love you; but you are extravagant!" demurred Miss Maggie.

"Yes. You use everything you have every day, and you never protect a thing. Actually, I don't believe there's a tidy or a linen slip in all the drawers!"

"That's true," said Mr. Smith, a fervent "Thank the Lord!" Miss Maggie wondered. "And that brings me right up to something else I was going to say. I want you to know that I'm going to help you."

Miss Maggie looked distressed and raised a protesting hand. "Mrs. Jane smilingly shook her head and went on."

"Yes, I am. I always said I should, if I had money, and I shall—though I must confess that I'd have a good deal more heart to do it if you weren't quite so extravagant. But I'll give you Mr. Smith to board."

"Oh, I say!" spluttered Mr. Smith. "But again I don't know whether to shake her head and continue speaking."

"And if we move, I'm going to give you the parlor carpet, and some rugs to protect it."

"Thank you, but, really, I don't want the parlor carpet," refused Miss Maggie, her eyes southerly intent.

"And I shall give you some money, too," said Mrs. Jane, very graciously. "When the interest begins to come in, you know. I shall give you some of that. It's too bad you should have nothing while I have so much."

"Jane, please!" The smouldering fire in Miss Maggie's eyes had become a flame now.

"Nonsense, Maggie, you mustn't be so proud. It's no shame to be poor. Wasn't I poor just the other day?"

"But, really, I don't know why we won't any more about it now. I'll go back to my own problems. Then you advise me—both of you—to move, do you?"

"I do, most certainly," bowed Miss Maggie, still with a trace of constraint.

"And you, Mr. Smith?"

Mr. Smith turned and threw up both his hands.

"For Heaven's sake, lady, go home, and spend—some of that money!"

Mrs. Jane made a dash for the door.

"Well, I don't see but what I shall have to, with everybody against me like this. She sighed, getting slowly to her feet. "But if you knew—of either of you knew—how really valuable money is, and how much it would earn for you, if you'd only let it, I don't believe you'd be quite so fast to tell me to go and spend it."

"Perhaps not; but then, you see, we don't know," smiled Miss Maggie, once again her cheery self.

Mr. Smith said nothing. Mr. Smith had turned his back just then.

When Mrs. Jane was gone, Mr. Smith faced Miss Maggie with a quizzical smile.

"Well?" he hazarded.

"You mean—"

"I'm awaiting orders as your new boarder."

"Oh. They'll not be alarming, I assure you. Do you really want to come?"

"Indeed I do! And I think it's mighty good of you to take me. But—should you do you think? Haven't you got enough, with your father to care for? Won't it be too hard for you?"

She shook her head.

"I think not. Besides, I'm going to help. Annabelle and Florence, a farmer's daughters, are very anxious to be in town to attend school this winter, and I have said that I would take them. They will work for their board."

"The man gave a disdainful sniff."

"I can imagine how much work you'll let them do! It strikes me the 'help' is on the other foot. However, we'll let that pass. I shall be glad enough to come, and I'll stay unless I find you're doing too much and going beyond your strength. But, how about—your father?"

"Oh, he won't mind."

"He proposes the idea himself. Besides—she twinkled merrily—"you really get along wonderfully with father, you know. And, as for work—I shall have more time now; Hattie will have some one else to care for her headaches, and Jane won't put down any more carpets, I fancy, for a while."

"Well, I should hope!" he shrugged.

"Honestly, Miss Maggie, one of the best things about this Blackie money, in my eyes, is that it may give you a little rest from being chief cook and bottle washer and head nurse combined, on tap for any minute. But, say, that woman will spend some of that money, won't she?"

Helps A Weak Throat Strengthens The Voice Relieves Bronchitis

By Breathing The Healing Balsams of Catharhose, With Aro, Made Well Without Using Drugs.

You breathe through the Catharhose Inhaler medicated air that is full of healing, soothing balsams, full of piney antiseptic essences that resemble the air of the pine woods in the Adirondacks. This piney vapor has a truly marvelous action on weak throats. It brings strength and health to the bronchitis, stops that hacking cough and difficult breathing. You can't find anything for weak-throated people more beneficial than Catharhose, which is made from the earth to the man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catharhose which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. It doesn't make you cough. It lasts two months, costs \$1.00. Medium size 50 sample size 25c. All storekeepers or the Catharhose Co., Montreal.

Miss Maggie smiled significantly. "I think she will. I saw Frank last evening—though I didn't think necessary to say so to her. He came to see me. I think you'll find that they and very many more of the ladies of the family have some new clothes."

"Well, I hope so."

"You mean concerned."

"Concerned? Er—ah—well, I am," he asserted stoutly. "Such a wind-fall of wealth ought to bring a newness, I think; and it seemed to me, Hattie, though, of course, she'll never enter as time goes on, how to spend her money. But Mrs. Jane—And, by the way, how is Miss Flora bearing up under the burden?"

Miss Maggie laughed. "Poor Flora!"

"And do I hear 'Poor Flora!' say 'Poor Flora!'?"

"Oh, she won't be 'poor' thing," smiled Miss Maggie. "She'll get used to it—this stupendous sum of money—some of these days. But just now she's nearly frightened to death."

"Frightened?"

"Yes—because she's got it, and because she's afraid she'll lose it. That doesn't sound logical, I know, but Flora has a horror of money. To begin with, she hasn't the least idea how to spend money. Under my careful guidance, however, she has bought her a few new dresses—though they're dead black—"

"Black?" interrupted the man.

"Yes, she's on mourning," smiled Miss Maggie, as he came to a dismayed stop. "She would do it. She declared she wouldn't feel like decent unless she did, with that poor man dead, and giving her all that money."

"But he isn't dead—that is, they aren't sure he's dead," amended Mr. Smith hastily.

"But Flora thinks he is. She says he must be as he would have been in time to save all his money. She's very much shocked, especially at Hattie, that there is so little respect being shown his memory. So she is all the more determined to do the best she can on her part."

"Does she didn't know him, so she can't—er—really mourn for him," stammered the man. There was a most curious helplessness on Mr. Smith's face.

"No, she says she can't really mourn," smiled Miss Maggie again, and that's what worries her the most of anything—because she can't mourn, and when he's been so good to her—and he was a dear, wife no longer, nor child to mourn for him, she says. But she's determined to go through the outward form of it, at least. So she's made herself some new black dresses and she's bought a veil. She takes Mr. Fulton's picture (she had cut out from a magazine, I believe), and has had it framed and hung on her wall. On the mantle beneath it she keeps fresh flowers always. She says it's the nearest she came to putting flowers on his grave, poor man!"

"Good heavens!" breathed Mr. Smith, falling limply into a chair.

"And she doesn't go anywhere, except to church, and for necessary errands."

(To be continued)

A Musical Hand saw

Carpenter Succeeds in Getting Agreeable Music From Tool.

The ordinary hand saw has recently appeared as a musical instrument. One of the leading novelties of a New York musical review is a musical carpenter, who uses his saw as a violin. After long experience and untiring practice, this man has succeeded in getting very agreeable music from the tool. He holds the saw handle between his legs, holds the tip of the saw in one hand and works the usual violin bow with the other. The vibrating steel blade emits soft, appealing notes, the pitch of which is varied by changing the curvature of the blade. All sorts of queer effects can be got by adept manipulation of the blade. Sometimes the music resembles the human voice; again it has the weird wail of the Hawaiian ukulele.

"Oh, he won't mind."

"He proposes the idea himself. Besides—she twinkled merrily—"you really get along wonderfully with father, you know. And, as for work—I shall have more time now; Hattie will have some one else to care for her headaches, and Jane won't put down any more carpets, I fancy, for a while."

"Well, I should hope!" he shrugged.

"Honestly, Miss Maggie, one of the best things about this Blackie money, in my eyes, is that it may give you a little rest from being chief cook and bottle washer and head nurse combined, on tap for any minute. But, say, that woman will spend some of that money, won't she?"

"Well, I should hope!" he shrugged.

London To Bagdad By Airplane

Journey Made In Two Days Used To Take Six.

An officer of the Royal Air Force proceeding home from Mesopotamia in the ordinary course of duty, travelled from Bagdad to London in six days. He flew from Mesopotamia to Egypt in two days over the route which has been opened up by the Royal Air Force for the carriage of official mails.

Starting at Bagdad at 6 a.m. on September 15, the flight across the Syrian Desert to Amman, a distance of 515 miles, was made in 8 3/4 hours on the first day. The second day's journey began early and by 9 o'clock Heliopolis was reached after a flight of 325 miles. From Heliopolis the journey was continued to Aboukir, the total distance covered on this day was arranged to connect with the sailing of the S.S. "Wahab" from Alexandria at 11 a.m. Within 40 minutes of arrival at Aboukir, the officer embarked for the remainder of his journey to England by sea and rail. He arrived in London at 8.5 p.m. on September 21, six days and 14 hours after leaving Bagdad, having saved from 10 to 14 days in passage.

The flight from Mesopotamia was surveyed and organized by the Royal Air Force in June of this year. A regular fortnightly service by air for the carriage of official correspondence was started on August 1.

Carrier Telephone System Successful

Service Has Been Installed Between Edmonton and Calgary.

The first carrier telephone system in Canada has been put into commercial use between Edmonton and Calgary. It has been under test for some time, and is now declared to be a complete success and ready for business. The installation was made during the late summer for the purpose of improving and increasing the Government telephone service between the two cities and to outlying points in both the north and the south.

Two new lines have been provided by the installation of this system without the stringing of any wire, and superintended by telephone department says that the results in actual use are fifty per cent. better than with any physical or copper wire line.

The great advantage of the carrier service is that it will not be possible to talk over a distance of 700 miles in any part of Alberta, taking in the Edmonton-Calgary line. Conversations between two subscribers in Edmonton passing over the carrier line to Calgary and back again, or vice versa, are clearer than the ordinary house-to-house calls in either city. It is also possible now to carry on several simultaneous conversations over the same line.

A Gigantic Apple Tree

Can Shelter Two Hundred Persons Under Its Branches.

At Meeth Gardens, Helston, Cornwall, owned by a Councilor W. Roberts, is a remarkable apple tree, planted over seventy years ago by the late John Anthony. A thirty-five stage ladder is needed to reach the top branches, and the tree is domeshaped with boughs reaching to the ground.

From underneath the tree it looks like a room, capable of holding over 200 persons. It is reported to be the largest apple tree in Cornwall, Devon and Somerset, and was last summer loaded with fruit estimated to weigh over two tons.

The fruit is the orange pippin kind and of very fine quality.

Talking Pictures.

A picture that talks without the aid of a phonograph or any other sound producing mechanical device has been invented by Grindell Matthews and has been successfully demonstrated. It embraces the principle of photographing sound waves. At the demonstration a picture was shown of a man seated at a piano. As he struck the keys the sound of music in a correct tone was heard from the instrument, which looks like a sugar spoon. The inventor asserts that the system will soon revolutionize the motion picture business.

Dutch Honey Bees for B.C.

A consignment of Dutch honey bees has arrived for the use of Kelowna apiarists. The Dutch bee is celebrated for its honey-producing qualities. Agriculture is becoming an important branch of husbandry among the fruit farmers of the Okanagan Valley.

It is not always the depth or novelty of a thought which constitutes its value to ourselves, but the fitness of its application to our circumstances.

Let us remember that all that is good on earth is merely a reflection of the good that is above.

Remarkable Gain In Weight Reported By This Young Woman

"Before I began taking Tanlac I only weighed 76 pounds, I now weigh over one hundred and am gaining every day," said Miss La Rue Davis, of Chattanooga, Tenn.

"I bought my first bottle of Tanlac at Gas City, Ind., and it helped me so much that I continued using it. I have always been very delicate and suffered a great deal from stomach trouble and rheumatism. I rarely ever had any appetite and slumped could not rely anything. I fell off

until I only weighed 76 pounds and was so thin I looked perfectly awful. This is the condition I was in when I began taking Tanlac.

"Oh, I feel so different now. Even my complexion is improved. My appetite is good and I can hardly get enough to eat. Tanlac is simply grand and I can truthfully say it is the only medicine that has ever done me any good."

Tanlac is sold by leading druggists everywhere.

"The Marseillaise" Was Popular

Sung By All Allied Armies in France.

"John Brown's Body" and "Dixie," the product of Civil War times, have probably been the most popular of American marching songs; "A Hot Time" is the martial legacy of the Spanish-American War. With songs will be best remembered in connection with the Great War "Over There," "The Last Long Mile," "Tipperary," and "Madelon" are mentioned in a recent book as possible candidates for the honor, while "Hail, Hail, the Gang's All Here" is also probably to be reckoned with. "The Marseillaise," however, it is declared, was sung by all the Allied Armies in France more generally than any other song.

Favors Admitting Germany

Should Belong to League Says Lord Robert Cecil.

Lord Robert Cecil, speaking at Hull, said he considered the great blot on the League of Nations was the fact that it contained no working men delegates. He emphasized the urgent need of Government control of the manufacture of arms in order to minimize incitement to war. He held that Germany ought to be admitted to the league, and he believed she would have been admitted at the recent assembly if she had applied.

Alberta Grows Many Potatoes.

The Alberta potato crop for the present year is officially estimated at 6,425,000 bushels.

Use **MURINE** Night-Morning Keep Your Eyes Clean, Clear and Healthy

CLARK'S Kitchen at your Service again this Summer

CLARK'S TOMATO SOUP

CLARK'S Tomato Soup is such a treat --

Fine ripe tomatoes fresh from the fields give it their rich flavor, and all you have to do is to heat and serve.

CLARK SOUPS are made in 13 different sorts, and include chicken.

Like all "Clark Good Things" the price is moderate.

Made from Canadian Farm Produce and sold everywhere in Canada.

PIPE OR PIPELESS HECLA MELLOWAIR FURNACE

There can be no question of the satisfaction a HECLA furnace gives—there's 65 years' experience behind it.

Genuine Aspirin

Nothing Else is Aspirin—say "Bayer"

Warning. Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headache, Earache, Toothache, Neuralgia, Rheumatism, Neuralgia, Lumbago and Pain. Made in Canada.

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal diseases which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you find a treatment which is both quick and thorough.

Mr. C. E. Raymus, Lindale, Alta., writes:—

"I was a great sufferer from kidney disease and have back pain for many years. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and acting upon his advice I tried them. After I had taken a few I felt better, so I continued until I had used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Memorial Service Nov. 7

November 7, is Thanksgiving Day throughout Canada. It falls within Armistice week, Nov. 11 being Armistice Day. Only three years have passed since the Great War ceased. Fifty thousand of Canada's sons paid out their lives in the cause of freedom. We think they should not be forgotten. Accordingly we have decided to hold a memorial service in the Chinook church at 2.30 p.m., November 7. This service was suggested by a number of the Returned men.—Rev. G. A. Kettlys.

The waters of the Milk and St. Mary rivers, which rise in Montana and flow across the boundary into Alberta, are to be divided equally between the United States and Canada for irrigation purposes, the International Joint Waterways Commission has decided.

FOUND NOTICE

Impounded in the pound kept by the undersigned on the N.W. ¼ of Section 21-28-7, on October 10th, One Brown Mare, about 9 years old, white spot on forehead, weight about 1150 lbs. No visible brand.

Dated at Chinook, Alberta, this 25th day of October, 1921.

J. Varcoe,
Poundkeeper.

New Map of Alberta

Owing to the rapidly approaching depletion of available crown lands situated within a reasonable distance of a railway, attention is now being directed to a large extent of unoccupied and uncultivated land held by non-resident owners. As shown by statistics recently compiled in the Department of the Interior, a large part of these lands is available for purchase at reasonable prices.

The 1921 edition of the Southern Alberta Land map, which is issued by the Department of the Interior, gives in color scheme the location of the uncultivated lands that are offered for sale and also the remaining Crown lands available for homesteading, whereby the settler can see at a glance all existing opportunities for settlement. The map has also many other features of interest, such as Indian and forest reserves, timber berths, Dominion parks, land districts and agencies, railway lines, and all topographical features revised to date. A copy of this map may be procured free of charge upon application to the Natural Resources—Intelligence Branch, Department of Interior, Ottawa.

The Department will also supply lists of unoccupied and uncultivated lands covering any particular district, containing the names and addresses of the owners, prices asked for the land, nature of the soil and acreage for cultivation.

Local G.W.V.A. Will Distribute Poppies

The local G.W.V.A. are making arrangements to distribute poppies during Armistice week, which will be worn by every patriotic citizen on Armistice Day the day set apart for the commemoration of victories attained and peace gained by those who served in the Great War.

These poppies are made by women and children in the devastated regions of France. There are three worthy objects which it is hoped might be attained by this campaign. To inaugurate the custom of wearing a poppy on Armistice Day, and thus cherish in perpetuity the memory of our sacred dead. To provide local organizations of the G.W.V.A. with relief funds to meet the distress which is certain to be occasioned by widespread unemployment during the coming winter. To aid the orphan children of the devastated areas in France to become self-sustaining.

The November District meeting of the Methodist church in the Youngstown district will convene at Cereel, Nov. 1, at one p.m. Aside from the regular appointed delegates, any one who desires to attend the afternoon and evening sessions will be welcomed. Addresses, papers and discussions bearing upon problems of the Church will be the order of the day.

What About the Skating Rink?

Some weeks ago we advocated the need of a skating rink for the amusement of the young people of the town during the winter. Several citizens since have shown considerable interest in the movement, but so far no definite steps have been taken. It has come to our knowledge that, should a rink be built, it would not cost very much for the hauling of the water for flooding same, as some one has already volunteered to do this work. What is needed is for those interested to get together and organize a committee, and appeals for contribution in way of work will eagerly be responded to.

Just the four brick wall of the handsome four room school at Innisfree is all that remains of the \$20,000 structure as a result of a fire which commenced from an unknown origin early Saturday morning.

Two Minutes of Silence Will Be Observed, Nov. 11

In compliance with the request of the British colonial office, the Canadian government will shortly issue a proclamation calling upon all Canadians to observe the two minutes of silence, from 11 o'clock in the forenoon until two minutes after, on Friday, Nov. 11, the anniversary of the actual signing of the armistice. Special commemoration ceremonies will be held on Monday, Nov. 7, as provided by the act passed at the last session of parliament.
